INITIAL SCREEN

The screenshot shows the eMedNY ePACES Initial Screen. At the top, there is a header with the eMedNY logo and the text "ePACES". To the right of the header are links for "Help" and "Log Out". Below the header is a "Change Provider:" dropdown menu with a "Go" button. The main content area features a large "ePACES" logo and a "welcome to" message. To the left of the main content is a sidebar with a list of links organized into categories: Claims, Eligibility, PA/DVS, Support Files, User Admin, and Certificate Admin. At the bottom of the sidebar is the PAAPRESS logo. The main content area contains a paragraph of text about HIPAA-compliant Medicaid transactions and a "Change Provider" dropdown menu. Below this is an orange banner with text about the Medicaid pharmacy benefit transition. At the bottom of the main content area is a paragraph of text about further information and links to eMedNY and DOH.

welcome to

ePACES

The New York State Department of Health invites you to use the ePACES application to request and receive a variety of HIPAA-compliant Medicaid transactions. Using the links in the menu-bar on the left and the Help link on the top right of each page, you will be able to easily navigate through all the available functionality. If you do not see the necessary links in the menu at the left, please contact your Primary Administrator.

Please make sure your Provider Name is displayed at the top of the page before continuing. If your Provider Name is incorrect or not available in the "Change Provider" drop-down box at the top of the page, please contact the eMedNY HelpDesk at 800-343-9000.

Effective 4/1/2023: The Medicaid pharmacy benefit will transition from Medicaid Managed Care to **NYRx, The Medicaid Pharmacy Program.**

Submission Reason: NPI Number:

* Payer Claim Control Number:

* Patient Control Number:

Submission Reason: Choose *Original* if you are submitting a new claim or resubmitting a previously denied or rejected claim. Choose *Replace* if you are submitting an Adjustment and choose *Void* if you are voiding a claim. If you choose *Replace* or *Void*, you must enter the Payer Claim Control Number of the paid claim. This number appears on the remittance statement as the Transaction Control Number (TCN). The Payer Claim Control Number field will only appear if you select *Replace* or *Void* from the drop down. **Note:** Options *Interim* and *Final* also appear in the drop down menu. These are only for use by Certified Home Health Agencies.

NPI Number: The NPI in this field is defaulted to the current NPI for the MMIS provider ID to which it maps. If you are billing a date of service when the NPI for the **same** MMIS provider ID was different, enter the old NPI in this field.

- * **Payer Claim Control Number:** Enter the payer claim control number (also called a TCN), if you are submitting an Adjustment or Void to a previously paid claim. **Note:** This field will only appear if doing an adjustment or void.
- * **Patient Control Number:** Enter the Patient Control Number. This is also referred to as the Office Account number. You may enter up to 20 characters and each number should be unique to the patient for whom you are submitting a claim. This field is required on all claims.

REFERENCE GUIDE

EDITING A CLAIM - DRAFT, ERRORS OR COMPLETE

There are many reasons why you may need to edit an existing claim. For example, you may not have had all of the information when initially entering the claim and therefore saved it in Draft status. You also may have finished the claim, but when it went through the validation process, errors were found that need to be fixed in order to successfully submit the claim for processing. Additionally, you now have the ability to edit and resend a claim that is in a Sent status.

When in edit mode, all data on the claim may be edited except for the Submission Type, Client ID and Date Of Birth, Gender and Type of Claim which are located on the General Information Tab. The process of editing a claim and entering a claim are very similar in navigation.

Depending on the status of the claim, the editing process differs slightly.

- **DRAFT:** Editing a claim that has been saved as a Draft is a continuation of the Claim Entry process. If a claim is saved as a draft, no validation has been done to the data entered. Once you complete entering information and click *Finish*, the data is sent through the standard claim validation and will either have a status of 'Complete' or 'Errors', depending on the outcome.
- **ERRORS:** A claim in Error status has been entered and Finished, thus triggering the validation process. When errors exist, a message will be displayed on the confirmation page indicating the error on the claim. Once the errors have been fixed and you click *Finish* the claim will be sent through the validation process again to confirm the errors have been resolved.
- **COMPLETE:** Editing a claim that has been fully entered and passed all validation, therefore has a status of Complete, is similar to editing a claim in Draft. You may change any data on any of the tabs, with the exception of the General Information Tab, and then *Finish* the claim, thereby initiating the validation process. Assuming all changes made were valid, the claim will once again have a status of Complete, awaiting the batching process; otherwise, it will be placed in Error status.
- **SENT:** A claim that has already been sent for processing and therefore has a status of Sent may be replaced or edited as an Original claim and resent. If a Sent claim must be replaced, clicking the *Replace Claim* button generates a new claim with a Claim Submission Reason of "Replacement". You may then make any edits necessary to the new claim. A Replacement claim requires the Claim Original Reference Number to be populated. These new claims will go through the standard validation, batching, and submittal process to be sent to the Payer. You can only replace a claim that has been paid. **If a sent claim must be edited and resent, clicking the *Edit Claim* button will generate a new claim with a Claim Submission Reason of 'Original'. You may then make any edits necessary to the new claim and it does not require the Claim Original Reference Number to be populated.** You can edit a claim that has been denied in order to resend a new corrected claim. (See below for expanded instructions on editing a Sent claim.)
- **REPLACED:** Once a Replacement claim has been generated to replace a Sent claim, the Sent claim will then have a status of Replaced. A Replaced claim may not be edited, it may only be viewed.
- **VOIDED:** Once a Void claim has been generated to replace a Sent claim (see [Deleting a Sent Claim](#) for more details in the Help documentation) the Sent claim will then have a status of Voided. A Voided claim may not be edited, it may only be viewed.

EDIT A SENT CLAIM

The *Edit Claim* button only appears on claims in a Sent status at the bottom of the screen next to the *Void Claim* and *Replace Claim* buttons. Sent claims may be accessed through the *Find Claims* function. This function allows you to edit and resubmit a claim that was previously sent for processing.

When the *Edit Claim* function is selected, the Submission Reason will change to Original. All of the information on the claim may be modified except for the Submission Reason, Client ID, DOB and Gender. Unlike a void or an adjustment, **there is no association to the previously sent claim.** You will not need the Claim Original Ref. Num. to re-submit the claim. All of the information on the sent claim is copied to the new claim **except** for the *More Details* information on the Service Lines. However, any line adjudication information will be copied over to the new claim.
