3/27/2023 9:27 AM

> Effective **April 1, 2023**, Medicaid members enrolled in:

- Mainstream Medicaid Managed Care (MMC) Plans
- Health and Recovery Plans (HARPs)
- HIV-Special Needs Plans (SNPs)

will receive pharmacy benefits through the NYRx Pharmacy program

- The pharmacy benefit transition to NYRx <u>does not</u> apply to NYS Medicaid members enrolled in:
 - Managed Long-Term Care (MLTC) Plans
 - Programs of All-Inclusive Care for the Elderly (PACE)
 - Medicaid Advantage Plus (MAP)
 - Child Health Plus (CHP)
 - Essential Plan

- The NYRx Drug Benefit change will not alter the scope of the existing NYS Medicaid pharmacy benefits including:
 - Copayments
 - Covered Rx and OTC drugs
 - Pharmacist administered vaccines
 - Enteral nutrition
 - Medical/Surgical supplies

Transition Period

Between April 1, 2023 and June 30, 2023:

- NYS Medicaid members will be able to obtain a one-time fill for medications that are non-preferred in NYRx without the normal PA requirement.
- This will allow additional time for prescribers to switch NYS Medicaid members to a NYRx preferred medication (no PA required) or obtain a PA for the non-preferred medication.

The following NYRx Programs will apply as of April 1, 2023:

Preferred Drug Program (PDP) - promotes the use of less expensive, equally effective prescription drugs when medically appropriate.

https://newyork.fhsc.com/providers/PDP_about.asp

Brand Less Than Generic (BLTG) Program - is a cost containment initiative which promotes the use of certain multisource brand name drugs when the cost of the brand name drug is less expensive than the generic equivalent. <u>https://newyork.fhsc.com/providers/bltgp_about.asp</u>

Clinical Drug Review Program (CDRP) - is aimed to ensure that specific drugs are used in a medically appropriate manner.

https://newyork.fhsc.com/providers/CDRP_about.asp

Drug Utilization Review (DUR) Program - helps to ensure that prescriptions for outpatient drugs are appropriate, medically necessary and not likely to result in adverse medical consequences.

https://www.health.ny.gov/health_care/medicaid/program/dur /index.htm

Mandatory Generic Drug Program (MGDP) - requires PA for brand name prescriptions with an A-rated generic equivalent.

https://newyork.fhsc.com/providers/MGDP_about.asp

Dose Optimization Program - can reduce prescription costs by reducing the number of pills a patient needs to take each day.

https://newyork.fhsc.com/downloads/providers/NYRx_%E2% 80%8CPDP_PDL.pdf

Preferred Diabetic Supply Program (PDSP) - provides NYS Medicaid members access to quality glucose meters and test strips, while at the same time reducing overall program costs. <u>https://newyork.fhsc.com/providers/diabeticsupplies.asp</u>

NYS MEDICAID PRE-ADJUDICATION CROSSWALK FOR HEALTH CARE CLAIMS

VERSION 5010 (BATCH AND REAL-TIME)

The specifications for the transactions referenced here are the property of the Accredited Standards Committee X12 and are available at:

http://www.wpc-edi.com/ http://store.x12.org/

Implementation Guide (TR3): 005010X212 005010X214

It is extremely important that providers, as well as the vendors that service the eMedNY provider community, react to the front end responses sent by eMedNY. Claims rejected by the front end process are not reported in the Remittance Advice or any other transactions.

The following table lists the specific values returned by the eMedNY system in the ASC X12N 277 Health Care Claim Acknowledgment in the loop 2200D and 2220D STC segment for Claim Status Category Code (STC01-1), Claim Status Code (STC01-2), and Entity Identifier Code (STC01-3) in response to electronic healthcare claims submitted on the ASC X12N 837 Health Care Claim. Note also that by default, an STC segment with STC01 valued with A1|20 is returned in loop 2200B.

Inbound claims are validated against a set of preliminary edits that are checked prior to adjudication but after EDI translation. If no errors are found on a specific claim, the claim is forwarded for adjudication. Otherwise the codes listed in the table below will report the specific error condition that was identified. When submitted claims fail any of these edits they will not be adjudicated.

> Several claim edits previously reported on remittances are now moved to the pre-adjudication process.

✓ Examples: client ID invalid, Dx code invalid, procedure code invalid

> Providers MUST correct and resubmit rejected claims as these are not reflected in a remittance advice.

ProDUR-ECCA D.0 Provider Manual

The New York State Department of Health (NYSDOH) has implemented a program that allows the pharmacy community to submit MEVS transactions in an on-line real-time environment that performs a Prospective Drug Utilization Review (Pro-DUR). This program was implemented on June 1, 1994 and is being administered by the fiscal agent. In order to receive payment for services rendered, all pharmacies must submit their transactions through the on-line DUR program. If desired, this program can also capture claims electronically and transmit them to the fiscal agent for adjudication. The purpose of the Pro-DUR program is to comply with OBRA 90 mandated Pro-DUR requirements. This program will check all prescriptions with prescription drugs the recipient has taken over the past 90 days and alerts the pharmacists to possible medical problems associated with dispensing the new drug.

This manual is designed to familiarize you with the ProDUR/ECCA system, and contains multiple sections discussing the different aspects of the ProDUR system. You may either view or download this manual by using the options below.

Timely Claim Submission

- Initially submit claims within 90 days of the date of service to be valid and enforceable, unless the claim is delayed due to circumstances outside the control of the provider.
- Claims submitted after 90 days must be submitted within 30 days from the time submission came within the control of the provider.
- If a claim is returned to a provider due to data insufficiency or claiming errors (rejected or denied), it must be corrected and resubmitted within 60 days of the date of notification to the provider.
- In addition, paid claims requiring correction or resubmission must be submitted as adjustments to the paid claim within 60 days of the date of notification.
- In most cases adjustments, rather than voids, must be billed to correct a paid claim.
- Claims not correctly resubmitted within 60 days, or those continuing to not be payable after the second resubmission, are neither valid nor enforceable.

Special Edition

NYRx Pharmacy Benefit Transition Special Edition - Part Three

Effective April 1, 2023, NYS Medicaid members enrolled in mainstream Medicaid Managed Care (MMC) Plans, Health and Recovery Plans (HARPs), and HIV-Special Needs Plans (SNPs) will receive their pharmacy benefits through NYRx, the Medicaid Pharmacy Program formerly known as Medicaid Fee-for-Service, instead of through their MMC Plan. The pharmacy benefit transition to NYRx *does not* apply to NYS Medicaid members enrolled in Managed Long-Term Care (MLTC) Plans [e.g., MLTC, Programs of All-Inclusive Care for the Elderly (PACE), Medicaid Advantage Plus (MAP), the Essential Plan, or Child Health Plus (CHP)].

Important Announcements

😳 September 9, 2022

An updated version of the <u>eMedNY MCE 834 Companion Guide (version 3.0)</u> is published on the eMedNYHIPAASupport page. Changes being planned with this release (October 27, 2022) includes updated Race and Ethnicity Codes.

Currently, eMedNY shares the Race and Ethnicity information for WMS members using a limited set of codes from the 834 TR3 internal code list for DMG05-1. With this release, eMedNY will transition to an expanded set of standardized codes, by using the components DMG05-2 and DMG05-3, to share Race and Ethnicity Information for WMS Members. For detailed information, refer to the updated Code List in the MCE 834 CG.

All sample transactions within the Companion Guide are updated and can be used by the Plans for internal testing. eMedNY will NOT send any test files directly to Plans as part of this update. Text versions of all samples included in this Companion Guide are also available for download from the eMedNYHIPAASupport <u>Transaction Instructions</u> page. Look for these MCE 834 CG Sample Files under Managed Care Enrollment and select appropriate CG Samples.

https://www.emedny.org/HIPAA/5010/transactions/index.aspx

Managed Care Plans are encouraged to review the updated guidance and begin preparing for these changes outlined for the MCE 834 transaction set.
